THERMADE

PRODUCT SHEET

COMPOSITION

- **White clays:** Bentonite, Kaolin
- **Green clay:** Velay Green Clay
- **Algae:** Lithothamnion, Fucus vesiculosus, Laminaria digitata
- **Flavouring:** Eucalyptus powder

Contains **no essential oils or allergens**.
The high concentration of algae allows the **poultice to warm naturally**.

CERTIFICATION & QUALITY

The clays used are **ECOCERT-certified**.
Lithothamnion is **FCA-certified** (Food Chain Alliance).
Fucus vesiculosus and Laminaria digitata are of **"cosmetic grade"** quality.

BENEFITS

- Promotes muscle **relaxation** and supports **recovery** after exercise.
- **Stimulates blood** and **lymphatic circulation** for better **elimination of toxins**.
- **Remineralizes** the body thanks to its natural richness in **trace elements** and **mineral salt**s from the earth and the sea.

RECOMMANDATIONS

THERMADE is recommended for horses engaged in strenuous physical activity or for convalescent horses, providing a moment of well-being.

DIRECTIONS FOR USE

For ***external*** *use only.*

1. Using the measuring scoop provided in the bucket, mix **2 scoops of powder with 1 scoop of hot or cold water**. The amount of finished product required depends on the area to be treated and should be adjusted as needed.
    - Hot water: approx. 38°C for a **relaxing and warming effect**.
    - Cold water: approx. 17°C for a **decongesting and cooling effect.**
2. Leave the preparation to stand for a few minutes to allow the **ionic exchanges to take place**.
3. Clean and dry the areas to be treated on the horse: **back, hindquarters, neck, chest and legs**.
4. Apply a **minimum thickness of 5 mm**, with the first application **against the direction of hair growt**h, then spread to obtain a smooth surface.
5. Cover with **wrapping film and a blanket for a minimum of 30 minutes**.
6. Remove the poultice by **rinsing the horse with water**, or allow it to dry and remove it by **brushing**.
